***physarum polycephalum a new take  
on a classic model system***

*April 28th, 2020 - the acellular  
slime mold *p polycephalum* is a  
model system that is interesting  
to biochemists cell biologists  
chemists developmental biologists  
geneticists and physicists alike  
it was first described by von  
schweinitz in 1822 particularly in  
japan slime mold research has a  
long standing tradition the  
japanese emperor hirohito who  
reigned over japan from 1926 to  
1989 was fascinated'*

**'six websites to learn how to code  
william brooks medium**

May 20th, 2020 - about a year ago  
i began my quest to learn to code  
not being exactly sure where to  
start i found myself doing what  
everybody does now a days googling  
how to code on google and came''***an  
image processing approach to solve  
labyrinth discovery***

**lesswrong 2 0**

May 14th, 2020 - reading and  
actually paying attention to moral  
mazes is hard writing carefully  
about it is even harder i  
effectively spent several months  
forcing my way through the book  
because it seemed important to do  
that i then spent a month trying  
to write about the book but that s  
going super slow as well the  
repetition the saying the same  
thing from multiple angles the  
detailed examples seem''**solving  
mazes using microfluidic networks  
langmuir**

March 14th, 2020 - this work  
demonstrates that pressure driven  
flow in a microfluidic network can  
solve mazelike problems by  
exploring all possible solutions  
in a parallel fashion microfluidic  
networks can be fabricated easily  
by soft lithography and rapid  
prototyping to find the best path  
between the inlet and the outlet  
of these networks the channels are  
filled with a fluid and the path  
of a second dyed'
