'what noises cause hearing loss nceh cdc

***May 26th, 2020 - hearing loss can result from a
single loud sound like firecrackers near your ear
or more often hearing loss can result over time
from damage caused by repeated exposures to
loud sounds the louder the sound the shorter the
amount of time it takes for hearing loss to occur
the longer the exposure the greater the risk for
hearing loss'***

'investigating sound and hearing

**May 22nd, 2020 - a smaller number of
children do not associate the detection of
sound with the act of hearing or the function
of their ears some do recognise that their
ears play a role in hearing sounds but they
believe that only the outer visible ear
structure is somehow involved and that their
inner ear and brain play no part in the
process'**
