Membrane Biology Q

amp As

December 17th, 2019

- The cell membrane touches the cell wall just slightly and the cell is called a flaccid cell. When plant cells are placed in hypotonic medium, water tends to enter them. $SF = TP$ since the osmotic pressure is fully compensated by the distension of the cell wall and $DPD = 0$.

Cell Membrane Images The Biology Corner

December 24th, 2019

- Basic images of the cell membrane and transport are shown and students provide labels and descriptions for the processes being depicted. Processes include osmosis, diffusion, endocytosis, and sodium potassium pump. The exercise is meant to improve student understanding of these concepts.
