**'The concept of adaptation interdisciplinary scope and**

---

**May 2nd, 2020 - Adaptation refers to both a process and its outcome leading to many interpretations and much debate. The origin of this semantic duality is related to the epistemological rupture that occurred during the 19th century when it collided with the emerging Theory of Evolution and established Creationism. The temporal scale of Evolution is an abstract concept that is outside the realm of immediate."**

**Organizational learning**

**May 3rd, 2020 - Organizational learning is the process of creating, retaining, and transferring knowledge within an organization. An organization improves over time as it gains experience. From this experience, it is able to create knowledge. This knowledge is broad, covering any topic that could better an organization."**

**The sociology of emotions: Four decades of progress**

**May 2nd, 2020 - The emotions that human beings experience play a fundamental role in all social phenomena. As a result, sociology needs to incorporate the analysis of affective structures and emotional dynamics into its objects of study. The integration of feelings, affects, moods, and emotional states into sociological research, which began four decades ago with the birth of the sociology of**
