getting our arms  
around'

*'what is the internet  
of things iot  
definition from  
June 7th, 2020 - the*

---

---

internet of things  
iot is a putting  
concept that  
describes the idea of  
everyday physical  
objects being  
connected to the  
internet and being  
able to identify  
themselves to other  
devices the term is  
closely identified  
with rfid as the  
method of communication  
although it also may  
include other sensor  
technologies wireless  
technologies or qr  
codes'
