**'Review Environmental Monitoring With Arduino WIRED**

February 26th, 2012 - Environmental Monitoring with Arduino Building Simple Devices to Collect Data About the World Around Us written by Emily Gertz and Patrick Di Justo and published by O'Reilly's Maker Press presents a great set of projects centered around the Arduino and sensing the environment around you" ***PARduino a simple and inexpensive device for logging***

*December 23rd, 2019 - Here we present a design for a low cost field deployable device for measuring and recording PAR built around an Arduino microcontroller?named PARduino. PARduino provides for widely distributed sensor arrays and tests the feasibility of using open source hobbyist grade electronics for collecting scientific data'*

**'Environmental Monitoring with Arduino Download Free eBooks**

**December 25th, 2019 - Right now thousands of people worldwide are tracking environmental conditions with monitoring devices they've built themselves. You can do it too. This inspiring guide shows you how to use Arduino to create gadgets for measuring noise, weather, electromagnetic interference (EMI), water purity, and more.'**
