'analog circuit design x dsl and other
munication

April 19th, 2020 - they are tutorial
in nature and together make a
contribution to improving the design
of analogue circuits the book is
divided into three parts part i x dsl
and other munication systems presents
some examples of recent improved modem
techniques which have resulted in much
higher transmission speeds over the
local telephone network'

'a separation based ui architecture
with a dsl for role

April 23rd, 2020 - we propose a new
dsl and separation based architecture
and development methodology the
approach separates front end ui
concerns from back end implementation
concerns a climate science application
illustrates the approach and verifies
its validity evaluation of the
approach includes parative analysis
and usability studies'

'nextflow a dsl for parallel and
scalable putational

May 25th, 2020 - unified parallelism
nextflow is based on the dataflow
programming model which greatly
simplifies writing plex distributed
pipelines parallelisation is
implicitly defined by the processes
input and output declarations the
resulting applications are inherently
parallel and can scale up or scale out
transparently without having to adapt
to a specific platform architecture'

'x dsl architecture kumar balaji
