'Performance Analysis and Design of Filtering Hydrocyclones

December 16th, 2019 - The objective of this work is to compare the performances of the filtering hydrocyclones designed by Bradley and by Rietema The experimental results obtained with the filtering hydrocyclones under the same operational conditions as those used with the conventional device allow the conclusion that performance of the Bradley and Rietema types is significantly influenced by the filtering medium''Theoretical Analysis and Experimental Study of Dynamic

December 4th, 2019 - The advantages of dynamic hydrocyclones such as wider applicable flowrate range smaller cut size etc are analyzed compared with normally used static hydrocyclones By analyzing the inside velocity field distributions the reason why dynamic hydrocyclones have higher efficiency than static ones is further described''Reduction of solids by liquid cyclones as an aid to

July 31st, 2019 - The final step in apple juice clarification is normally carried out by pressure filtration Since most pressure filters operate in a discontinuous manner a reduction of suspended solids in the unclar ified juice would be expected to improve filter performance'
