using delphi to create ponents dynamically delphi

June 4th, 2020 - to create a label ponent on the fly create a new project with one form on that  
form place a button and double click on it to edit the click event handler write the following

---

```
code procedure TForm1.Button1Click(Sender TObject)
var ALabel, TLabel: TLabel;
begin
  ALabel := TLabel.Create(self);
  ALabel.Parent := self;
  ALabel.Visible := true;
  ALabel.Caption := 'Created dynamically';
  ALabel.Top := 10;
end;
delphi components products
```

June 1st, 2020 - delphi zip ponent with full pkzip patibility zip unzip fast deflate implementation multi disk splitting string aes encryption zip64 sfx repair streaming support transaction system zip password protection progress indication and other useful features zipfe doesn't require dlls it piles directly into exe file zipfe is free for personal use delphi zip ponent'

---

**' tms diagram studio documentation**

*May 29th, 2020 - diagram studio is a set of ponents for delphi and c builder to easily add for easy editing of diagram design time diagram editing support diagram snap grid the ponent can only be distributed on cd rom or other media with written autorization of the author'*

**'extending the delphi library chapter 9 writing delphi**

*May 26th, 2020 - extending the delphi library delphi ponents are classes and the visual ponents*

---

library vcl is the collection of all the classes defining delphi ponents you extend the vcl by writing new ponent classes in a package and installing it in delphi'

'**delphi sources building your first ponent english**

*April 30th, 2020 - building your first ponent building ponents is an important activity for delphi programmers basically any time you need the same behavior in two different places in an application or in two different applications you can place the shared code in a class or even better in a ponent'*

'**dr bob s delphi clinic how to write delphi and c builder**

---

May 7th, 2020 - to install our first wizard all we need to do is act like it s a new ponent for delphi 1 0 pick options install for delphi 2 0x and 3 select ponent install and add it to the list of installed ponents delphi 1 and 2 simply add the wizard the the ponent library but delphi 3 needs to add it to a package the dclusr30'

### 'modifying an existing ponent embarcadero website

June 1st, 2020 - modifying an existing ponent overview the easiest way to create a ponent is to derive it from a ponent that does nearly everything you want then make whatever changes you need

---

what follows is a simple example that modifies the standard memo ponent to create a memo that does not wrap words by default'

**'ponents gt files and drives gt cd torry s delphi pages**

*May 23rd, 2020 - this ponent is very easy to use it s ideal for developers for quick cd dvd writing purposes from delphi or c builder the ponent works in two modes synchronous mode and asynchronous mode in synchronous mode the operational functions burn erase writeimage eject always wait for the end of the current operation and return a value which indicates if the operation was*

---

---

*successful or not'*

**'rudy s delphi corner free vcl ponents**

*May 31st, 2020 - free vcl ponents during the last few years i have developed a few ponents for delphi the ponents are freeware and e with full source some of them even with a german language help file to include with delphi most of these ponents are old and some haven t e out of the beta or alpha stage anymore so some of the'* **delphi ponent writer s guide layout**

**May 23rd, 2020 - delphi ponent writer s guide 1 create a new project 2 place an about box ponent on the main form 3 place a mand button on the form 4 double click the mand button to create an**

---

empty click event handler 5 in the click event handler type the following line of code  
aboutboxdlg1 execute'

'how to store files inside an executable program

April 23rd, 2020 - open source software delphi ponents tutorials amp more sitemap site rescued  
while the site is still going to move from its current host a new site will now take its place we  
will also just copy one file into the resource it s simple to extend this to more than one''**custom
