phonology

November 16th, 2019

- phonology is a
branch of
linguistics

concerned with the systematic organization of sounds in spoken languages and signs in sign languages it used to be only the study of the systems of phonemes in spoken languages but it may also cover any linguistic analysis either at a level beneath the word or at all levels of language where sound or signs are structured to convey linguistic meaning sign languages have a phonological system equivalent to the system of sounds in spoken languages the buildi'
