**May 24th, 2020 - science ics  
coral reefs cities of the ocean  
is one of two debut books in a  
new non fiction graphic novel  
line from first second and it s  
wonderful just as she did in  
human body theater maris  
wicks takes a plex scientific  
subject and makes it both  
understandable and beautiful  
our narrator is an adorable  
cartoon of a glasses wearing  
fish who wants to show us its  
home in the coral'**

*'corals and coral reefs  
smithsonian ocean*

*May 26th, 2020 - coral reefs  
are the most diverse of all  
marine ecosystems they teem  
with life with perhaps one  
quarter of all ocean species  
depending on reefs for food and  
shelter this is a remarkable  
statistic when you consider that  
reefs cover just a tiny fraction  
less than one percent of the  
earth s surface and less than  
two percent of the ocean  
bottom'*

**'ocean acidification on coral

**'coral reef ecosystems national oceanic and atmospheric**

**May 26th, 2020 - coral reefs are some of the most diverse ecosystems in the world coral polyps the animals primarily responsible for building reefs can take many forms large reef building colonies graceful flowing fans and even small solitary anisms thousands of species of corals have been discovered some live in warm shallow tropical seas and others in the cold dark depths**

---

---

**of the ocean'**

**'how do coral reefs form  
thoughtco**

**May 22nd, 2020 - an  
important part of coral reefs  
is their calcium carbonate  
skeleton if you follow ocean  
issues you know that animals  
with calcium carbonate  
skeletons are under stress  
from ocean acidification  
ocean acidification causes a  
lowering of the ocean's pH  
and this makes it difficult for  
corals and other animals that  
have calcium carbonate  
skeletons'**

***'customer reviews science ics
