that s relativity huffpost**

May 18th, 2020 - from a science
standpoint the good news is that
there s a lot in interstellar
that is real solid science this
probably stems largely from the
fact that caltech professor kip
thorne who has long been one of
my physics heroes served as an
executive producer on the film'

**'discovery of the
interstellar chiral molecule
science**

April 23rd, 2020 - a chiral
molecule is one that has two
forms that are mirror images of
each other enantiomers biological
systems overwhelmingly use one
enantiomer over another and some
meteorites show an excess of one
type the two forms are almost
identical chemically so how this
excess first arose is unknown
mcguire et al used radio
astronomy to detect the first
known chiral molecule in space'
