All about Math

December 16th, 2019 - Pierre de Fermat 1601 1665 France
Pierre de Fermat was the most brilliant mathematician of his era and along with Descartes one of the most influential. Although mathematics was just his hobby, Fermat was a government lawyer. Fermat practically founded Number Theory and also played key roles in the discoveries of Analytic Geometry and

'Millennium Prize Problems Maths Careers

November 26th, 2019 - This was the case with Fermat's last theorem, a theorem first written in 1637 by Pierre de Fermat, a French mathematician. Fermat's last theorem states that when n is a positive whole number bigger than 2, no other positive whole numbers a , b , and c can be found so that $a^n + b^n = c^n$.

'The 100 Greatest Mathematicians

December 27th, 2019 - Pierre de Fermat 1601 1665 France
Pierre de Fermat was the most brilliant mathematician of his era and along with Descartes one of the most influential. Although mathematics was just his hobby, Fermat was a government lawyer. Fermat practically founded Number Theory and also played key roles in the discoveries of Analytic Geometry and

'Solved at Last Maths Careers

December 2nd, 2019 - The centuries long journey was over, but the story of Fermat's Last Theorem isn't quite finished. Wiles' proof uses advances in modern maths that Pierre de Fermat couldn't possibly have known about. Some mathematicians believe that Fermat's "marvellous demonstration" of a simpler proof might still be rediscovered.

'Fermat Principle an overview ScienceDirect Topics

December 7th, 2019 - Fermat Pierre de 1601-1665
