## international space station

**May 31st, 2020 - the international space station iss is a modular space station habitable artificial satellite in low earth orbit the iss programme is a multi national collaborative project between five participating space agencies nasa united states roscosmos russia jaxa japan esa europe and csa canada the ownership and use of the space station is established by intergovernmental treaties'**

**'developing a mercial market for small sample return**

**May 31st, 2020 - developing a mercial market for small sample return a full moon is pictured from the international space station in 2019 carlos garcia agile space industries durango colorado usa before an era can begin in which prosperity arises through in situ resource utilisation'**

**'esa expands its services for mercial utilisation of iss**

May 12th, 2020 - this appointment is a major milestone in the mercialisation of the space station and is expected to lead to many panies across europe being aware of the r amp d opportunities that are available to them on board the iss iss lab ruhr gmbh is a pany that has been specifically established to promote the mercial utilisation of the iss'

**'purified urine in space mit technology review**

**May 27th, 2020 - a new prehensive life support system for the international space station iss centers on a water recycling system whose specially designed filters and chemical processes cleanse waste liquids'**

**'call for ideas on mercially driven research in space**

May 24th, 2020 - utilisation of the international space station iss and the other space environment facilities e g sounding rockets parabolic flights bedrest studies etc the aim is to generate ideas'

**'we explore you benefit**

May 27th, 2020 - the international space station iss has been permanently inhabited since 2000 the current crews consist of six astronauts of different nationalities research on board the iss advances scientific knowledge in many domains in particular in the fields of life and physical sciences and the ability for humans to work and live in extreme environments"**lunar gateway**

May 31st, 2020 - the lunar gateway is an in development mini space station in lunar orbit intended to serve as a solar powered munication hub science laboratory short term habitation module and holding area for rovers and other robots it is expected to play a major role in nasa s artemis program after 2024 while the project is led by nasa the gateway is meant to be developed serviced and utilized in'

**'the 101 guide to space crimes omri bouton**

June 2nd, 2020 - between 1998 and 1999 the russian institute of biomedical problems carried out the most prominent study on the effects that outer space has on human beh'

**'the international space station mercial utilisation**

**May 14th, 2020 - the international space station mercial utilisation from a european legal perspective studies in space law f g von der dunk m m t a brus on free shipping on qualifying offers the international space station mercial utilisation from a european legal perspective studies in space law'**

**'space dlr portal**

May 30th, 2020 - space transportation the research and development activities carried out by dlr in the space transportation programme aim to improve existing launch vehicles pave the way for future systems and ensure that they continue to be petitive in the international markets served by both private and mercial launch providers'

**'space news news by market airbus**

**May 24th, 2020 - the united nations office for outer space affairs unoosa works to promote international cooperation in the peaceful use and exploration of space and in the utilisation of space science and technology for sustainable economic and social development'**

**'spacex dragon european space agency**

**May 28th, 2020 - spacex dragon the dragon is an un manned automatic vehicle which is put in orbit by the falcon 9 launcher it will transport to the international space station and back to earth pressurized cargo active and passive including temperature conditioned samples"lunar exploration esa s missions**

April 18th, 2020 - the exploration of our moon is a global endeavour with europeans and mercial actors in situ resource utilisation grand tour of the international space station with drew"**nasa chooses axiom space to build first habitable**

**May 22nd, 2020 - nasa has chosen axiom space to set up at least one habitable mercial module that will be attached to the international space station iss it said in a statement'**

**'space infrastructures space airbus**

**May 31st, 2020 - the mercial use of the iss is increasing leading to new and low cost opportunities to access to space whatever the mission in low earth orbit airbus offers affordable and all in one mission service on board the international space station by hosting either external payloads or experiments inside the iss'**

**'space summit 2020 the economist events**

**May 29th, 2020 - in this role he led many partnerships with mercial industry including the first flight to the international space station of a mercial human rated expandable habitat the development and sponsorship of the in space manufacturing capabilities and the establishment of the cubesat launch initiative that provided access to over 100 satellite launches from educational entities across the'**

**'phanstiel lectures maxwell school**

---

May 19th, 2020 - he provides programmatic direction for the operation and utilization of the international space station iss development of the space launch system and orion spacecraft and is providing strategic guidance and direction for the mercial crew and cargo programs that will provide logistics and crew transportation to the space station'

**'one small step for property rights in outer space**

May 31st, 2020 - eo 13914 refers to president trump s space policy directive 1 which amends former president obama s national space policy to include the return of humans to the moon for long term exploration and utilization which importantly will involve mercial as well as international partners'

**'international space station systems engineering case study**

May 31st, 2020 - international space station considers what many believe to have been the ultimate international engineering project in history 2 probably more important was the significant leap in system engineering se execution that would be required to build and operate a multi national space station ina short period of time nasa"living in a bubble inflatable modules could be the future

**May 10th, 2020 - but the permissible mercial uses of space and the future of space utilisation and exploitation are going to need active international political dialogue about what the outer space treaty had"ubs space travel and space tourism a 23 billion cnbc**

May 31st, 2020 - in a decade high speed travel via outer space will represent an annual market of at least 20 billion and pete with long distance airline flights ubs says'

**'from windows 10 linux ipads iphones to hololens the**

May 21st, 2020 - circling the earth at about 18 000 mph the multinational crew of the international space station float high above the tensions that dominate the planet s international relations'

**'sts 135 enabling a new era of robotic satellite**

May 21st, 2020 - as space shuttle atlantis prepares to blast off to the international space station iss for her sts 135 mission on friday signalling the end of the space shuttle era a new era in robotic'

**'isecg annual report 2019 space exploration**

**May 22nd, 2020 - the international space exploration coordination group the exploration and utilisation of space resources is set to generate attractive opportunities luxembourg is mitted to supporting and nurturing the growing mercial space industry and contributing to the peaceful exploration and sustainable utilisation of resources from'**

**'pdf f g von der dunk and m m t a brus editors the**

May 19th, 2020 - f g von der dunk and m m t a brus editors the international space station mercial utilisation from a european legal perspective martinus nijhoff leiden 2006 isbn 9 0041 5256 3 267 pp 125 165'

**'sizing down and reaching higher with cubesats room the**

**May 31st, 2020 - trisept and isis offers services and nanoracks has introduced mercial cubesat deployment from the international space station and the capital being invested is at a tipping point with planet labs having recently pleted a 90 million usd round of financing with an estimated pany valuation of 250 million usd'**

**'the u n at 70 a view from outer space inter press service**

**May 23rd, 2020 - opportunities are quite clear as space faring nations are pursuing ambitious new projects at a cost of many millions of dollars and new technologies emerge enabling exciting applications such as harnessing solar power and mercial utilisation of the space station in producing newer forms of pharmaceuticals and hitherto unknown forms of materials"international space station utilization statistics**

**May 25th, 2020 - space agency asi an iss participant agency number of investigations performed on the international space station the information below provides an overview of iss utilization up to the end of march 2015 an expedition pair reflects the 6 month period used by the iss program for planning and execution of its activities'**

**'mercial space spaceref**

April 30th, 2020 - international space station s harmony module forward port via soft capture at 5 51 a m est while the station was traveling more than 250 miles over the pacific ocean just north of new zealand

**'cygnus advanced manoeuvring spacecraft**

May 22nd, 2020 - berth at the international space station iss supported by the ssrms space station robotic manipulation system after the pletion of the cargo operations at the iss download of cargo and upload of waste the cygnus will separate from the station and will perform a destructive re entry into earth s atmosphere cygnus flight profile'

**'space station user s guide spaceref**

April 16th, 2020 - the utilisation of the international space station esa a general introduction into the utilisation potential of the international space station international space station japanese experiment'

**'news space bd**

**May 24th, 2020 - in may 2018 space bd was selected by jaxa to bee the mercial provider of satellite deployment service from the kibo japanese experiment module of the international space station iss the pany contribues to promote businesses pertaining to the mercialisation of the low earth orbit centred around the iss including internal and external experimental platform"esa the iss is now open for business**

April 17th, 2020 - the european space agency is opening for business by launching the open call for mercial proposals for the mercial utilisation of the european segment of the international space station with this permanent open call esa is inviting the private entities that intend to use the station mercially to submit their proposals"space shuttle endeavour lands safely newsau

**May 17th, 2020 - the us space shuttle endeavour successfully landed in florida late after a two week mission to install a new module on the international space station from correspondents in florida aap february'**

**'image lunar agenda phys**

**May 26th, 2020 - this image of the moon was taken by esa astronaut alexander gerst from the international space station during his horizons mission but he s not the only one to be eyeing the moon these days'**

**'first spacex mercial human spaceflight transforms space**

**June 3rd, 2020 - not only does it return us missions to home soil but the first mercial operation to carry humans to the international space station opens up nasa s ambitions to return to the moon and beyond this mission drives down costs and is going to enable us to go not just to the moon but to go sustainably with re usable landers to the surface of the moon nasa administrator jim bridenstine said'**

**'space activities bill meant to boost private role will**

**May 31st, 2020 - for instance the us mercial space launch petitiveness act the american equivalent of the proposed indian law prises individual sections for remote sensing launch vehicles spacecraft and operations space resource utilisation etc with separate regulations for each type of activity therefore a national space legislation with blanket regulations to cover all panies'**

---

### 'australian space agency department of industry science

May 31st, 2020 - the fund will fill space infrastructure gaps to help businesses and researchers to participate in the global space economy international space investment initiative the international space investment initiative provides grants for projects to enable australia s participation in international space agency activities'

### 'frans von der dunk nebraska college of law

May 27th, 2020 - prof von der dunk was awarded the distinguished service award of the international institute of space law iisl of the international astronomical federation iaf in vancouver in october 2004 the social science award of the international academy of astronautics iaa in valencia in october 2006 and the 2015 social science book award international academy of'

### 'flights satlantis

**May 31st, 2020 - satlantis demonstrates for the first time its isim technology in the iva replaceable small exposed experiment platform i seep located outside of the japanese kibo module of the international space station iss this service is provided by jaxa through space bd the mercial operator for the utilisation of the japanese kibo module'**

### 'a european legal regime for mercial utilisation of the

February 5th, 2020 - a european legal regime for mercial utilisation of the international space station 2006"**casis focuses on near term iss utilization despite long**

May 19th, 2020 - despite a potential end to the iss in the mid 2020s the nonprofit anization that operates the iss national lab is concerned with near term utilization'

### '**the challenges and opportunities of a mercial human**

*May 31st, 2020 - esa is working in a partnership with the space industry to facilitate the implementation of such projects and support customers with a range of end to end mercial services the opportunities and challenges of a mercial human spaceflight involving a member of the european astronaut corps or a privately employed flight participant are discussed here'*

### 'india has it right nations either aim for the space

May 5th, 2020 - of prime interest is carving out a piece of the market for making and launching mercial resource utilisation using materials from space for to the international space station'

### 'international space station facilities research in space

**May 27th, 2020 - the international space station iss is an unprecedented human achievement from conception to construction to operation and long term utilization of a research platform on the frontier of space'**

### 'ohb awarded esa contract for dream chaser spacecraft study

May 22nd, 2020 - it is a multi mission space utility vehicle designed for transporting crew and cargo to leo destinations such as the international space station the dream chaser spacecraft was selected by nasa to provide a minimum of six cargo missions to and from the space station starting in late 2020 under the mercial resupply service 2 crs 2 contract"**office space density the new workspace metric the**

**May 27th, 2020 - office space and the recession during any recessionary period there is going to be an increasing focus on cost control and efficiency and one of the first places panies look to reduce cost is to examine their real estate which is typically one of their largest expenses second only to staffing"***first spacex mercial human spaceflight transforms space*

*May 27th, 2020 - first spacex mercial human spaceflight transforms space travel and humans to the international space station opens up nasa s for long term exploration and utilisation"***iss international space supercenter shopping mall**

**April 3rd, 2020 - luna corp was the first pany to successfully arrange for a television mercial to be shot on the international space station radio shack aired its space station mercial starting on may 30 2001 and bought additional network time leading up to father s day because it drew such a strong positive response from audiences"**
