series''**limit of a
sequence formulase**

archengine

June 4th, 2020 -
in mathematics the
limit of a
sequence is the
value that the
terms of a
sequence tend to
if such a limit
exists the
sequence is called
convergent a
sequence which
does not converge
is said to be
divergent the
limit of a
sequence is said
to be the
fundamental notion

on which the whole
of analysis
ultimately rests
limits can be
defined in any
metric or
topological space
but are usually'
