April 15th, 2020 - therefore given that food taboos can involve plants as well as animals solids as well as liquids

hot as well as cold categories wet and dry items etc 7 9 12 15
this review rather than attempting to provide a plete list of
food taboos operating in human societies will instead present
examples of food taboos in selected human groups that
illustrate some of the wide spectrum of food'

'behavior 9sites

May 21st, 2020 - pigs snap at each other as a normal part of
their behavior and they snap at a child just as easily it is
not a signal of a bad pig it is a perfectly normal action but
can easily result in injury and the pig who gets a deep
laceration will heal without a scar in no time without any
care but the same wound on a child is serious and will require
stitches and antibiotics and a lot of pain'

'guinea pig patients ashdeanvets

May 8th, 2020 - if in pain they may scream or squeal 1 when
startled they may freeze temporarily or frantically run around
their enclosure healthy guinea pigs are bright eyed and alert
and may appear tense or nervous at presentation unfortunately
like many rodents guinea pigs hide signs of illness for as
long as possible'
