## **chemistry of baking cookies thoughtco**

June 3rd, 2020 - you'll get the best results if you use room temperature eggs and butter. This helps the ingredients mix into the recipe more evenly and means your cookie dough will be room temperature and not cool when you put the cookies in the oven. The fat in the recipe affects the texture of the cookies and browns them, which influences flavor as well as color.

---

---

substituting a different fat in place of'
